INTRODUCE

Hello! I'm Mohammad Tasib, a passionate front-end developer. I develop web applications. My core skill is based on Javascript, and React Js. I love to do most things using Javascript. I love to make the web more open.

SKILLS

CORE: HTML5, CSS3, Bootstrap, Tailwind, Sass, Javascript, ES6, React Js, React-Router, React Bootstrap, React hooks, Chart Js, Firebase, etc.

FAMILIAR: Redux, Typescript, Next Js, React Query, Material Ui, Express.js, MongoDB, etc.

TOOLS: Vs Code, Git, Github, Firebase, Netlify, Heroku, NPM, Yarn, Chrome Dev Tool, etc.

PROJECTS

1. LUKAS -- MERN STACK PROJECT

This is a car parts store website. Not an e-commerce site. In this project, a user can purchase a product and it will be shown on the dashboard order page. The user may cancel the product. Or the user may pay for the product. Must be a user login to purchase the product. An admin may want to add a product, manage all orders, make an admin, manage products and update her profile, and much more functionality. Please visit this site and enjoy. **Admin Email:** admin@gmail.com **Password:** admin00.

FEATURES: React, Bootstrap, React-Router, React-Query, React Hook Form, Firebase, JWT, Stripe, SweetAlert, MongoDB, Express js, Heroku.

2. JERINS PARLOUR -- MERN STACK PROJECT

This is a parlour site. In this application, a user can be booking a parlour service and it will be shown on the dashboard book page. Must be a user login to book the service. The user may pay for the product. A user can give a review. The latest review shows the home page. An admin may want to add a service or manage all bookings, and much more functionality. Please visit this site. **Admin Email:** admin@gmail.com **Password:** admin00.

FEATURES: React, Tailwind, React-Router, React-Query, React Hook Form, Firebase, Stripe, SweetAlert, MongoDB, Express js, Heroku.

3. RED ONION -- REACT PROJECT

This is a simple react js project. This project is an exciting food menu. If you click on a food item and then display full details of this food, you may add a product to your shopping cart.

FEATURES: React, Bootstrap, React-Router
